

# SUMMER 2025: ARTMIX

## ARTY SCHOOL CLUBS

This Summer we dive into a special mix of art projects with our young artists! Children will be developing watercolour techniques and creating a fun thaumatrope. Inspired by Paul Klee we will be creating some magical lettering.

Exploring animal siblings children will create a fun silhouette experimenting with soft pastels and paint. We will be developing our observational skills, combined with a creative Surrealist twist and more.

We recommend an old shirt or apron to protect school uniform!
